PROFESSIONAL SUMMARY

Results-driven Full Stack Engineer and Cloud Specialist with expertise in building scalable web applications, RESTful API microservices, and automated DevOps deployment workflows. Technical proficiency spans Python, JavaScript, React.js, Node.js, Flask, Express.js, Docker, and AWS Cloud Infrastructure. Proven record in engineering secure JWT role-based authentication systems, automated resume parsing engines, and containerized deployment pipelines to optimize application performance and system scalability.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java, C, SQL (MySQL)

Frontend & UI/UX Design: HTML5, CSS3, React.js, Web Components, Figma, Responsive Web Design

Backend & Frameworks: Node.js, Express.js, Flask, Django, RESTful APIs, JWT Authentication

Cloud, DevOps & Databases: AWS Cloud Foundations, Docker, CI/CD Pipelines, MySQL, MongoDB

CS Fundamentals : Data Structures & Algorithms (DSA), OOP, DBMS, Operating Systems, Computer Networks.

Tools : Git, GitHub

PROFESSIONAL EXPERIENCE

Cloud Computing & DevOps Intern | NIT Tiruchirappalli

May 2026 – July 2026

- Architected containerized microservice application deployments utilizing Docker, increasing container orchestration stability and deployment reliability by 35%.
- Engineered automated CI/CD pipelines for continuous integration and delivery, reducing code release cycles and operational integration overhead by 25%.
- Managed AWS cloud infrastructure environments to maintain system availability and ensure high uptime.

Full Stack Developer Intern | Sypro Security Solutions, Vijayawada

May 2025 – June 2025

- Designed scalable backend RESTful APIs using Python, Flask, and Django to bridge data models with responsive user interfaces.
- Engineered the backend for a *Lyrics Search Application* featuring indexed database queries and real-time client-side debouncing, improving query retrieval speed by 40%.
- Executed rigorous API endpoint validation and integration testing using Postman to resolve data delivery bottlenecks across production deployment cycles.

KEY PROJECTS

CareerConnect AI — AI-Assisted Recruitment Platform

Technologies: React.js, Node.js, Express.js, MongoDB, JWT Authentication, REST APIs, Tailwind CSS

- Engineered a full-stack recruitment platform featuring role-based access control (RBAC) via secure JWT tokens to safeguard enterprise application endpoints.
- Integrated PDF resume parsing algorithms to dynamically extract candidate technical skills and compute accurate applicant-job matching scores.

Lyrics Search App — Full Stack Web Application

Technologies: Python, Flask Framework, RESTful APIs, MySQL Database, JavaScript (ES6+), HTML5, CSS3

- Developed a Python-Flask backend system managing 100+ indexed song metadata records to ensure sub-second response times during high-frequency searching.
- Designed a responsive UI consuming custom REST endpoints, incorporating client-side request debouncing to minimize redundant server requests.

EDUCATION

B.Tech in Information Technology — Sasi Institute of Technology & Engineering

2023 – Present | CGPA: 7.92 / 10.0

Intermediate (MPC) — Aditya Junior College, Rajahmundry

2021 – 2023 | Score: 82.4%

Secondary School Certificate (SSC) — B.V.M High School, Rajahmundry

2011 – 2021 | CGPA: 10.0 / 10.0

TECHNICAL ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- LeetCode:** Solved 50+ LeetCode data structure problems
- CodeChef:** completed 135+ competitive programming challenges on CodeChef.
- IEEE Hackathon:** Developed rapid prototype backends and designed scalable database schemas under strict hackathon deadlines.

CERTIFICATIONS

- AWS Academy Graduate - Cloud Foundations** — AWS Academy (Issued Apr 2026)
- Full Stack Development Using Python** — Sypro Security Solutions (Issued Jun 2025)
- Python for Beginners** — Simplilearn (Issued Mar 2025)
- Cloud Computing & DevOps Summer Internship Certificate** — NIT Tiruchirappalli (Issued Jul 2026)
- Operating Systems Basics** — Cisco Networking Academy (Issued Jan 2025)
